

To whom it may concern,

We are strongly in favor of single payer universal healthcare as are most other Americans. None of the Republican's objections are more than scare tactics based on misinformation and ridiculous speculation. The proof is in the facts: every advanced nation in the world except the US has universal healthcare which delivers excellent healthcare at a fraction of what Americans pay. Their prosperity is greater than ours, their upward mobility and security is better than ours. The Republicans rely on ignorance and half truths to advance their arguments.
