

Hello Representative Kerry Wood

My name is Jennifer Duff from Rocky Hill, CT and I strongly support expanding affordable quality health care choices for small businesses, nonprofits and all workers and families. Please vote yes on Senate Bill 842.

My father has owned small businesses with between two and twelve employees my whole life. I understand the difficulties with providing insurance as a small business.

-

This plan would provide the engines of our state economy – workers, families, small businesses and nonprofits – access to the same high-quality and high-value health care that you as a legislator now enjoy, and a more stable risk pool that will ensure my [business/nonprofit/family] is not jeopardized if an employee or family member falls ill.

Please consider the importance of Senate Bill 842 to establish new public options for health insurance and improve affordability for individuals and families. This is about living up to your promises to serve all of Connecticut's workers, families, small businesses and nonprofit employers.

Thank you!

Jennifer Duff  
Rocky Hill, CT
