

I am physician in Milford, CT.

I am urging you to vote no to SB 842.

This bill would raise the cost of health insurance, put taxpayers who are already burdened with high taxes to pay for this program's losses, and potentially force people onto Medicaid.

I have been practicing in Connecticut since 1992. It's well known that Connecticut is the easiest state in the country for a person to qualify for Medicaid. Connecticut has the highest number of people per capita on Medicaid. The state cannot afford more people on Medicaid.

So - vote no to SB 842.

Jerry A., Ferrentino, MD
