

Dear Insurance and Real Estate Committee:

I am writing to strongly support S.B. 842 regarding a public option for health insurance. It is a low-hanging fruit to provide all of our citizens with access to affordable health care, and it should be one urgently sought by our representatives.

Connecticut has the responsibility and the authority to address its citizens needs through legislative action. During a global pandemic, and with inequity on a sharp incline, our communities need healthcare. If Connecticut can do that, it should.
