

Dear Elected Officials,

Despite the lofty promise of affordable and accessible Health Insurance, this proposal could:

- Cite promise savings and access that are unproven and unsustainable
- Raise the cost of private and employer health insurance
- Force people onto state run Medicaid
- CT taxpayers will pay for the government-run insurance's future losses.
- Kill good-paying private sector insurance jobs in our state

Republicans have proposed a better way.

[Our Republican solution](#) (SB 502 proposed by Senators Kevin Kelly, Paul Formica and Tony Hwang) protects middle-class families and Connecticut jobs. It will be based on market proven health insurance risk management and cost controls. It could lower health insurance premiums up to 20 percent while not harming our state's flagship insurance industry.

[Our Republican solution](#) makes health insurance more affordable, but it does not put thousands of Connecticut jobs in jeopardy at a time when the state is dead last in the nation in job growth.

We do not need state government in the health care business!

Thank you.
