

Good Morning,

I am writing to oppose the Raised Bill #842 – Proposed Health Insurance & Health Care Act. As a small business owner who provides first class health insurance to our employees I am in favor of the Republican proposed solutions to reduce health insurance costs for middles class families and protect Ct jobs. Government run healthcare will surely increase our taxes and cost thousands of good paying jobs. If reducing healthcare costs, lowering taxes and creating jobs are of interest, you can start with restructuring the State employee healthcare & benefits package. Why shouldn't ALL Ct residents have the same healthcare opportunities?

Sincerely,

Mark Grieco  
President
