

Hi-

I want it on record that I do not support government run health care. Not even a little bit.

Have any of you ever tried to navigate the marketplace website? Or used the market place insurance? I have and thank goodness, I am done with that! I am one of the people who was told the lie "If I like my insurance, I can keep my insurance." Well, my insurance skyrocketed and I went on the marketplace even though I did not want or require or apply for a subsidy. What an awful experience. Awful website. Representatives not knowing their job. Don't even get me started.

Luckily the insurance companies leveled out their prices and this year I was able to go directly to the insurance company to purchase insurance instead of the marketplace. Prior to checking the cost, I was ready to pay any amount to get the marketplace out of my life.

I DO NOT SUPPORT GOVERNMENT RUN HEALTH CARE!!!

Sincerely,
Lori Hilton
