

To whom it may concern:

I would like to register my opposition to the proposed bill on government run health care, SB 842. Unfortunately, everything and anything this state becomes involved in turns into a disaster that becomes far more expensive than anyone wanted to acknowledge upfront. This state has enough problems, it doesn't need to get involved in something it is totally unqualified to do. The road to ruin in CT has been paved with many good intentions gone bad. This is another. Stop it now.
