

I am not in favor of government-run health care in Connecticut.

We do not need an increase in our health insurance premiums or more people being forced in to Medicaid.

We had Obamacare which was an expensive alternative for health insurance but in reality they covered nothing. Terrible plan!!

I would like people to have a choice with their health insurance as well as the pharmacies they want to use. Stop letting the big chain stores, such as CVS Caremark rule everyone on prescription fills. I support the Independent Pharmacy and the reimbursement rates they are receiving are not the same as the BIG GUY! They are being forced out of business. Stop the forced use of mail order as well!! WE SHOULD HAVE A CHOICE!

Thank you.
