

No to S.B. 842

Government should stay out of people's personal decisions. Especially health care. Medicare for seniors who have already paid into the system is one thing. Keeping the funds and using it for just that purpose is now the government's problem. SOLVE THAT ONE! Not ask for MORE \$\$ to cover what was already there.

If you can't think this out...ask the Republicans what to do! Or NOT do!
