

Subject: Testimony in support of SB 842

Connecticut families have struggled. We have persevered. We have done the right thing, taken care of each other, and worked together to overcome this terrible crisis.

Now, we need to ensure that no one in Connecticut is left without healthcare coverage when they need it the most. This is why we are asking Connecticut legislators to support S.B. 842, a bill that will create a public option for Connecticut.

I'm lucky to enjoy Medicare under an retired employee health care plan that covers nearly all my medical bills. Everyone, without exception, deserves no less. Until we have a national health-care program, Connecticut should step up to the plate.
