

As a taxpayer in Connecticut, I fully support SB 842. Unfortunately I am a constituent of Senator Dan Champagne, who sent out a fear-mongering message that passage of the bill would run businesses out of the state. I don't agree with this message, and furthermore think that such a bill would actually bring folks into Connecticut. On top of that, providing all of our citizens with health care is the moral thing to do.

Sincerely,

Rita Malenczyk
