

No to S.B. 842

To: Connecticut State Legislators

Why would any sane person propose this "tax money sponge" legislation after the year 2020!

Why would Connecticut want to move ahead with this expensive "government operated" elephant when the state has lost thousands of jobs and businesses causing the State Tax Base to SHRINK as the result!

Connecticut has "safety nets" for medical care. Thousands of citizens have private insurance, others Medicare and Medicaid. Where would all this money come from? Answer: MORE TAXES!

Would this be the "excuse" for TOLLS?

Why not wait to see what the "Biden/Harris" administration plans! They promised "universal Healthcare", so WHY would any Connecticut legislator want to "jump the gun" on Washington?

Respectfully submitted,

Richard W. Mayhew

Plantsville, Ct. 06479
