

Good morning:

My name is Ernest Pitti and I reside in Bristol and I am against this bill that would create state government run healthcare in Ct.

Our state government has been unable to manage its challenges, reduce unemployment nor recover from the economic tailspin it's been in for years so why would any citizen have faith that it could manage a healthcare system of its own design on its own. No thank you.

Respectfully,

Ernest Pitti
Bristol, Ct 06010
