

I believe this proposed program is nothing short of socialism, I am strongly opposed to a government run health care system. I do not want any level of government between myself and the medical professionals of my choice.

This program will be unacceptable for several reasons, you will be giving me and many others just another reason to leave this state.

- Kill good-paying private sector insurance jobs in our state
- Raise the cost of private and employer health insurance
- Force people onto Medicaid
- Put Connecticut taxpayers on the hook to pay for the government-run program's future losses.

Do not allow this bad idea to be implemented
