

Republicans have proposed a better way.

The [Republican solution](#) protects middle-class families and Connecticut jobs. It lowers health insurance premiums up to 20 percent while not harming our state's flagship insurance industry.

The [Republican solution](#) makes health insurance more affordable, but it does not put thousands of Connecticut jobs in jeopardy at a time when the state is dead last in the nation in job growth.

We do not need the Democratic proposal. More jobs and more companies in CT will be GONE!

You have not seen anybody really moving into CT. Why! It is one of the highest average tax states in the USA.

When will CT state government ever respect state economics instead of crafting more inordinate tax proposals?
