

My name is Andy Silva, I live and pay taxes in Southington, CT.

I have worked in insurance and financial services my entire life. We used to be known as the "Insurance Capital of the World".

Insurance is much more efficient and less expensive than anything our State or Federal governments can produce.

I was out of work for several years and had no healthcare insurance. I was forced into Obamacare through AccessHealth. They told me I qualified for the insurance after spending a lengthy time with their "agents". Well, at the end of the year I was send a bill from the Feds for \$8500 to pay for that pathetic insurance for 1 year. I had to withdraw money from my 401k retirement to pay the bill. So please do us a big favor and LEAVE IT TO THE EXPERTS IN THE PRIVATE SECTOR!!!
