

Dear Ct. Council,

Our leadership has driven Connecticut into a slum state with hoards of non working people and welfare recipients burdeneing the state. You have allowed residence to manipulate and abuse the system while draining the life and funds from the remaining working people to dispurse it among the people that are unwilling to help themselves. The State and Federal Government are BLEEDING THE WORKING CLASS DRY.

You have also allowed and participated in causing mass hysteria over the Covid 19 virus , WITHOUT justification.

Now you want to further ruin our health care by taking it over, NO ! I certinly can't afford to be squeezed financially anymore from this welfare handout state. Ct. robs the woking to give to the manipulators and some over paid employees.

Our govornment is Not in place to run peoples lives NOR provide endless support for persons makeing bad Choices.

Stop the coddeling of people, we have generations that truly believe their owed, entitled to what someone else has got off their rear end and has accomplished.

Its PATHETIC with no end in sight. You allow it , I'm wondering if this IS YOUR AGENDA.

Why don't you try limiting, there's limits for everything and I bet youd see some positive changes. Start helping those who help themselves, actually punish people who commit crimes ,our judicial is a joke, and when someone PROTECTS themselves from criminal actions..... stop punishing the VICTIMS, also do SOMETHING about animal abuse its rampent and the shameful way that people treat them, Farm, domestic and wildlife.

People's thought processes have become diluted. I'd much rather my taxes go to help the animals, environment and children. Thats who NEEDS HELP. Not the give me's.

Stop ruining everything with your government agenda. Stay out of people personal lives and pockets ITS NOT MY RESPONSIBILITY TO SUPPORT THE GENERAL POPULATION OF PEOPLE.

Respectfully,

G.Simmons

Meriden Ct. 06451
