

Dear Legislators, I am lucky. I have GOOD health insurance even though I am retired. Because of Covid many people have lost their jobs and, consequently, their access to health insurance. This has made it very clear that we should not have access to good health insurance (and health care) mediated by holding a job. It should be offered to all AT AN AFFORDABLE PRICE WITH NO EXCLUSIONS ON PRECONDITIONS.

Please support a public option in Connecticut.

Dr. John Stewart
