

At one point Hartford, CT was known as the insurance capital of the World. Our state has not protected and supported all those companies. Please keep our insurance companies doing what they do best, insuring people. Don't allow the government to control what they do and how. Years ago we should have been the ones writing ObamaCare. Our companies should have come up with an assigned-risk system with government assistance. It should not have been outsourced out of America! And it should not have done the damage it did to Americans and individual plans and companies. PLEASE support our Insurance Companies in Hartford and Vote NO!! to SB 842.
