

To Whom It Concerns:

My name is Amanda Torres and I am a resident of Norwalk, CT. I am reaching out today to encourage a vote of "NO" to SB842 and consider a collaborative approach with Republicans. We need to do better to unite parties both nationally and here in our home, Connecticut, as well.

I urge you to consider the middle class families and Connecticut jobs that are at stake. The cost of health insurance is high as is and in a pandemic, all costs need to be considered and the impact they have on the many of us who are "middle class." Republicans aim to lower health insurance premiums up to 20% while protecting our states insurance industry. Make health insurance MORE affordable and protect our jobs!

Aren't you tired of seeing Connecticut falling LAST in the nation when it comes to job growth? I sure am. What happened to the CT that was once considered "great"? We have gone astray and we need to get back on track to protect the people of Connecticut, our healthcare, our jobs and our growth.

Do better. Consider Republican collaboration and come to a mutual agreement.

Sincerely a concerned constituent,

Amanda D. Torres  
Norwalk, CT
