

**I adamantly oppose SB 842. This bill will destroy the health insurance industry and many families health insurance plans that they are perfectly happy with. Obama Care destroyed a very good, functioning , even if imperfect, medical system. Obama Care was designed to fail as to force the citizens into having a Socialist Heath Care System controlled by the Government under Medicare. It would give the Government the power to make life and death decisions for all off us citizens except for themselves. I am a voter and I request my Representative and Senator to vote NO on this bill.**
