

I'd like to register my opposition to the assessment on health insurance that's contemplated under HB 6447 and SB 842. I question why our leaders would consider taxing something that people are already struggling to afford? Connecticut should be doing the exact opposite and instead be removing the premium taxes and other assessments that currently add to the bottom line of what we pay for health insurance. I'm guessing most people don't even know that Connecticut taxes their insurance. It just seems wrong. I hope legislators will reconsider the current taxes and oppose adding any new ones
