

I am writing in opposition to both I am writing in opposition to both **S.B. 1024 and H.B. 6107** which, yet again, demonstrate an attempt by the machinery in Hartford to usurp the lawful rights of local communities to oversee zoning regulations in their respective towns. The state government in Hartford has repeatedly demonstrated its incompetence in addressing the massive problems its own actions have foisted on the citizens of Connecticut. To grant it even more power to bring its failed track record to local matters is ridiculous and another example of political overreach. First fix the problems you created at the state level.
