

Hello,

I truly believe that myself and my fellow residents understand that affordable housing is so important. However, local governments should be able to control the zoning of their towns. Each town has unique infrastructure and environmental situations - zoning for such should be applied from a local level so expertise on the areas is not lost. We don't want a "one size fits all" solution from Hartford that doesn't necessarily address the affordable housing issues of our town. We trust ourselves and our neighbors who care about our town, it's environment, the traffic patterns and our future to help make appropriate decisions to keep our town the way we love it.

Thank you,  
Taylor Bodson
