We all believe that affordable housing is important. However, local governments should be able to control the zoning of their towns. Each town is different and has unique infrastructure and environmental situations to consider. Local governments should oversee making the right decision for each town. We don't want a "one size fits" solution from Hartford that doesn't necessarily address the affordable housing issues of our town. We trust ourselves and our neighbors who care about our town, city's people, environment, traffic, and our future.
