

Oppose Bills HB6107 and SB1027

To Whom It May Concern

The Town of Greenwich should have the right to decide what type of housing is built in its town.

Multiple housing without any control by the Board of Housing will cause many problems ie overcrowding - traffic - collection of waste products and use of town facilities.

Any expansion needs to be done in a controlled sympathetically thought out way so that the existing town is not affected adversely which would defeat any plan that would just expand for expansions sake.

Carolyn Clayton Mercy  
Resident of Greenwich
