

SUBJECT: OPPOSE: Senate Bill 1024, HB 6107

The local governments should have the right to control the zoning of their towns. I am against passing the above Bills. A sweeping blanket policy from Hartford is not a fair solution. Each town has unique environmental issues and infrastructure that take time and research to understand. It should be up to our **elected local officials** to decide for our neighborhoods. We trust them to make the best decisions. We care about our town and we all want affordable housing solutions to be addressed to create a diverse, interesting community where people learn from each other. The most effective way that will achieve the highest community support will be from the local level.
