

HB6107 and SB1027

To Whom It May Concern,

We all believe that affordable housing is important. However, local governments should be able to control the zoning of their towns. Each town has unique infrastructure and environmental situations and the local governments know what they are doing. We don't want a "one size fits" solution from Hartford that doesn't necessarily address the affordable housing issues of our town. We trust ourselves and our neighbors who care about our town, city's people, environment, traffic and our future.

This is such an overreach by state government. It's not possible that you have processed all the unintended consequences. Each town is unique and that's what makes CT specials. Local control is so important in this country.

Please don't move forward with this onerous zoning bill.

Sincerely,

Susan Holey
