

TO OUR ELECTED OFFICIALS:

We all believe that affordable housing is important. Notwithstanding this basic tenet local governments should and need to be able to control the zoning of their own towns - that is a basic premise of democracy in this country.

Each town has unique infrastructure and environmental situations and the local governments know what they are doing. We don't want or need a "one size fits" solution from Hartford that does not address the affordable housing issues of our towns all through CT. We trust ourselves and our neighbors who care about our town, our town's citizens, our environment, traffic and the town's future.

Oppose HB6107 and SB 1027.
