

I live in a a modest home in North Stamford that we purchased in 2006 for \$740k during the height of home prices. Our house has done nothing but depreciate since then. This proposed tax is insulting. People are struggling as it is. Why are you attacking the middle class? We already pay a ridiculous amount in taxes for our cars. Hartford must pull the plug on Bills HB6107 and SB1027.

Sincerely,
Noelle Manginelli
North Stamford
