

I support changes that would require towns to allow low income housing, multiple household units, and transit based housing and so I am in favor of legislation such as senate bills 1024, 1026, and 1027 and house bills 6107, 6611, 6112, 6613, and 6107. Our state is far too segregated and we need to push suburbs to include more diverse housing.

Thank you
