

## OPPOSE BILLS HB6107 and SB1027

I oppose all of these bills including most of subsets to them SB1027, HB 6107 are mandates that are changing zoning regulations for individual towns that are too dictatorial and unacceptable. What does Hartford know about Greenwich or Groton or Sherman, Darien or Roxbury?

Wrong, wrong, wrong! Local people know their local needs and manage them best. They live there and care about their residents. They also understand that affordable is different in each area .

Enacting these regulations will destroy the tax base, send too many tax payers to Florida and remove any hope of providing jobs for these mandated affordable housing developments.
