

*Oppose these bills: HB 6107, HB 6611, HB 6612, HB 6613, SB 1024, SB 1026, SB 1027 are a wide reach that the state should not overtake from our cities, towns, and other municipalities. The governance of these items and these areas should remain local and not be overtaken by the state or its agencies. This is a violation of governance and it provides the state with too much leverage to act in a way that is in the best interests of the individuals living in the municipalities within our state. The smaller local governments have the ability to enact and pursue avenues appropriate for their constituents and that should be their right, and the state shall not infringe upon the rights of smaller governments.*
