

Please do not infiltrate our quiet country towns with your government interference. We are retired military, could have moved anywhere in the country and chose the Quiet Corner, Hampton, CT. We worked, scrimped, saved our entire adult lives to have our peace of solitude here in this beautiful state. But if we have our peace stolen from what we've worked so hard for, we will move. We earned this right. We don't vacation, we don't buy new cars, we can barely afford this state as is, but it's worth the price to live in peace. If you start moving in apartment buildings and government housing, then everything this state promised us was a lie!

Barbara Reggio-Brown
