

HB6107 and SB1027

I believe that affordable housing is important. I believe that local government must be able to control their own zoning issues! Each town has their own infrastructure and environmental issues and our local governments know what they are doing. I do not believe that Hartford can address the affordable housing issues of our town.

We trust ourselves and our neighbors who care about our town, it's people it's environment and traffic and our future!

Respectfully yours,

Meri Thomas
