

HB6107 and SB1027

To those involved in this decision,

Hartford is very far from Greenwich, CT, and Fairfield County for a that matter. We have a large town government including 230 representatives from all the areas of town. As a member of the RTM of Greenwich for District 2 and a rrr we alter for Sotheby's International Realty, I'm confident that we can govern our own affordable housing issues. These representatives come from all walks of life and all have concerns over important issues such as these. We are all very educated and capable people to make the right decisions for all. We don't need the government in Hartford telling us how to make our local decisions. This, I'm sure you'll agree, is not a common sense approach. The leaders in Hartford can nit possibly know what's best for all of us.

Thank you,
Jill Tighe Kelly
Greenwich, CT
