

To all the Legislators of CT regarding bills HB6107 and SB1027:

As a long time resident of the state, I absolutely oppose these bills. If they are not voted down, the zoning regulations of CT towns will be directly in the hands of the state with disastrous ramifications on the middle class population.

Was it not enough to chase away GE Capital and many affluent individuals who contributed the lion's share of CT tax pool to realize that such tactics only spiral to ruin the state? Now the goal seems to be to chase away the vast majority of the middle class as well.

Vote Cease and Desist on these monstrous bills if you care about middle class!
