

HB6107 and SB1027

I believe that affordable housing is important. However, local governments should be able to control the zoning codes of their own towns. Each town has its unique infrastructure and environmental needs that the local governments are attuned to. Greenwich's planning and zoning department is thoughtful and knows what they are doing. ONE SIZE DOES NOT FIT ALL solution dictated by Hartford doesn't address the affordable housing issues in our town. This high-density development will put undo strain on our town's infrastructures and reduce the tax revenue that Greenwich send to Hartford.

Please vote NO on HB6107 and SB1027.

Sincerely,

Carol Zuckert  
Old Greenwich, CT 06870
