

Dear Legislators,

We SUPPORT HB 6646.

Our home has a crumbling foundation. We cannot sell it, refinance it, or borrow against it without severe financial harm to our family. Like many of our neighbors, our home is our largest asset that we have spent over 20 years supporting. Now, it literally is crumbling around us.

We therefore strongly support legislation to

- Allow homeowners to obtain a reassessment of their home that will remain valid **until the foundation is repaired or replaced, which may exceed the current (5) year time limit.**
- Extend the life of the captive insurance company.
- Provide funds from the Connecticut Housing Finance Authority to the captive insurance company to settle claims.

Very Respectfully,
Diane and James Bulick
Willington, CT 06279
