Planning and Development Testimony

Raised Bill No. 6646 – An Act Concerning Crumbling Concrete Foundations

I support this bill because I have an inspected level 3 crumbling foundation and the engineer told me a year ago that it needs to be replaced within the next 3-4 years before it becomes a dangerous situation. It is not fair to leave this responsibility of repair totally up to the homeowner. Concrete manufacturers, builders and Insurance companies should not be left off the hook with this financial burden. In the meantime, please help support the homeowners with this Bill.

Thank you.
