Please Oppose BOTH [SB 568](#) and [HB 6423](#)

Dear state legislators,

I am opposed to eliminating non-medical exemptions to immunizations on the basis of basic human rights and you should be as well. Human beings are sovereign and as such have the right to choose whether or not to undergo a medical procedure. This is most important with regard to parents whose duty it is to protect and care for children who are also sovereign but have no voice of their own.

This is not just my opinion, but directly from the Nuremberg Code: Article 6, Section 3, which states "in no case should a collective agreement or the consent of a community leader or any other authority, substitute for an individual's informed consent."

Leaders should be aware that mandating a medical intervention on the citizens of a nation and restricting rights to education or other essential human rights if they don't comply, is a war crime. Medical interventions, including vaccines, must remain voluntary.

Please take this into careful consideration as you cast your vote on these bills.

Respectfully submitted,

Robban Sica MD
