

To the members of the Public Health Committee,

My name is Glenda Alvarez and I am writing in strong opposition to S.B. 835.

I oppose to this bill because this pregnancy center has been helping me in the best way. In the state of CT, I don't have family members around and at Hope for Pregnancy Center I found the support I need while facing pregnancy. At this center you don't only receive moral support but the love and environment of a family. I'm very happy with their assistance as many women may be. I believe that centers like this one should not be attacked just because they don't believe in offering services such as abortion. That is their choice and their religious beliefs.

Thank you,

Glenda Alvarez
