A LETTER TO SERVE AS A
TESTIMONY

Dear Sir / Madam,

With Reference to S.B 835, I hereby oppose the this bill. This bill is an attack on the reputable organization; " HOPE PREGNANCY CENTER."

I hereby testify unequivocally to the fact that HOPE PREGNANCY has been exceptional and unique in its services delivery probably especially in this COVID-19 pandemic.

Any action that would be taken to halt or stop the unprecedented services being offered by HOPE PREGNANCY would jeopardize the interests of the same poor peoples the state government claims to be helping or fighting for.

As a matter of fact, if it were not HOPE PREGNANCY I wouldn't know what might happen to my family during this terrible COVID-19 pandemic.

This pandemic has really made some of us to know how imperative HOPE PREGNANCY could be.

HOPE PREGNANCY supplies my family with all kinds of baby foods, clothes, toys ; that's to mention more but few. Apart from physical money that my family has not received, the family has received so much items I can not mention by names.

The workers are so amazing to the extent that no racial prejudice has ever been carried out when discharging their duties. Being a black in America is not easy when it comes racism but I always felt at home whenever I was there.

This testimony is been given by me without any duress. This organization is not dishonest as this bill is claiming.

I may ask the state government to cushion their efforts rather to help the needy families in the society.

The fact is, true poor peoples do not ask for much so please do not take away our source of help.

Emmanuel Arthur
