

Greetings,

I am writing this in hopes that it will actually be read. I know there are many different agendas here on the table but I don't know how it got to the point where all rights regardless of human or civil have been up for sale. Human and civil rights are interchangeable. Americans fought for religious freedom, isn't that why we separated ourselves from Britain? It is a known fact that there are aborted fetus cells in vaccines. Abortion goes against my religion. Injecting FEMALE DNA INTO A MALE BODY AND VICE VERSA WILL CAUSE GENDER CONFUSION AMONGST OTHER DNA MUTATIONS. It doesn't take a scientist to realize that, it is common sense. DNA MUTATION LEADS TO CANCER AND DISEASE. Do you people have children? Grandchildren? Consciousness? Unvaccinated children are leaps and bounds healthier than vaccinated. Their spirits are intact. Unvaccinated doesn't mean germ/disease spreader. We leave our kids at home if they show symptoms just like any mother would. Actually, vaccinated kids get other kids sick because they SHED THE INOCULATION FOR WEEKS PERPETUATING THE ILLNESS ONTO OTHERS. THIS IS WHAT CAUSES OUTBREAKS.

In fact, all of these vaccine diseases were down in case count before vaccines were introduced because the country became industrialized and started to be more sanitary.

ALL CHILDREN HAVE A RIGHT TO EDUCATION REGARDLESS OF RELIGION, RACE AND GENDER.

Warm Regards,
