

To the members of the Public Health Committee,

My name is Gabrielle Farrell and I am writing in strong opposition to S.B. 835. I reached out to Hope Pregnancy Center for help a few months ago when I found out I was pregnant. I was worried at first that I was going to take anything out of these classes but that changed quickly. The people that I have been connected to here at Hope are more than welcoming and I couldn't ask for a better group of people to help me through my pregnancy. I would recommend Hope Pregnancy to everyone, I have learned so much from them already. It's a private place where I feel safe to talk about problems etc and they help me grow throughout my pregnancy as a mother.

Thank you,
Gabrielle Farrell
