

I'm writing in opposition to S.B. 835

Hello, I am Mrs. Hill- Flemming.

About 8 months ago a friend gave me the number to the HOPE CENTER when I decided to keep my 5th child. I was put to ease when I called the first time. I was told that things will be okay. They never once made me feel alone or judge when I told them I was going to abort my child because I had four already and was afraid of what cause happen due to my health. They open their arms with love and support. They told me that they would help me with prayer love and support. They kept their word! I was feeling like I couldn't do this yet they told me I could and I'm doing great because they never once told me an abortion was right or wrong. They gave support for LIFE. They told me that life is a blessing and my daughter is 4 months now a little sick yet I can call on the one person they matched me with to support me through this journey. Someone just for ME. A support person I could call on to talk to pray with or just and ear for myself. I'm ever so grateful that I found the HOPE Center. They have blessed us with pampers, milk, clothes, etc. I could call on the Hope Center for anything and they will support me the best they could. I ask that you please understand when I felt like the world was going to be impossible they showed me that I can and will be great with the support of my family and the support of the Hope Center. I'm ever so grateful for the staff (family) at the Hope Center. Please give understanding to the support and love provide from the HOPE CENTER.

Thank you

MRS. Hill-Flemming
