

To Whom it may Concern,

I write this letter in opposition of SB No. 835. Pregnancy centers are truly helpful to pregnant women and do not exhibit any type of false advertising. Pregnancy Centers in Connecticut help women get what they need to have a healthy pregnancy. Pregnancy centers offer women choices. You can keep the baby and get the help you need or go elsewhere to get an abortion. There is nothing misleading about that. This is not “false advertising”. IF they were called abortion centers and did not offer abortions, then that would be misleading. But the name “pregnancy center” does not mean abortion center.

I pray for heavenly wisdom and guidance from above.
In Jesus name. Amen

Amy Loflin
