

This bill by implication accuses pregnancy support centers who do not offer abortion services of fraud by intentionally excluding centers which do provide abortion services.

This bill is unnecessary since fraud is already illegal and so this bill is purely political by unfairly targeting non –profit pregnancy support centers that provide a needed service to our community.

Further, by not defining what “deceptive practices” means, the bill will be used for political abuses by the attorney general’s office.

Sincerely,

Mark McClain Groton CT.
