Attention Public Health Committee Members:

I oppose the Public Committee Bill – SB-00835 and I question why this committee would use the legislature's time and our tax dollars propose, once again, legislation that is both unnecessary and untimely. This bill has come before your committee and has been tabled for on reason or the other.

The language that you use in the bill with regard to deceptive advertising is unclear and it appears that it is focused only on pregnancy care centers that have a moral objection to abortion. This fact, in itself, is a violation of the religious liberty of the Connecticut Citizens.

Pregnancy Care Centers provide a much needed service to mother's who see their unborn children as a gift and want to let them to live. There are many woman that are grateful for the help that they have received. I participate in my local pregnancy care center's work through my personal financial donations, fund raising and quilt making. The center provides regular support for the mother's who come to them. To deny the basic need of the mothers during a pandemic is not only irrational, but cruel. Why are you doing this?

I can personally attest to the fact that the abortion facilities provide deceptive information to young mothers. Let us please be fair to all women. Mary Pollack
